

## Vision

Quality, Care, Cure

## Mission

To promote:

- ❖ Professional training and development
- ❖ Public education
- ❖ Advocacy to governments and other funding organizations
- ❖ Interdisciplinary collaboration

## Values

- ❖ We are committed to safety, quality and compassionate care of our patients
- ❖ We respect our patients and colleagues and place high value on clear communication with them and others
- ❖ Integrity, Transparency, Professionalism and Accountability will govern our decision-making and actions
- ❖ We will foster teamwork and collaboration within CaRO and between organizations and disciplines
- ❖ We will lead and innovate in radiation oncology and mentor the next generation to become responsible and passionate advocates for our profession
