

## **Radiation Oncologist Oncology Program TRILLIUM HEALTH PARTNERS**

Trillium Health Partners (THP) is the largest community based academic health network in Ontario serving over one million residents in the communities of Mississauga, Peel Region and West Toronto. The hospital encompasses three main sites – Credit Valley Hospital (CVH), Mississauga Hospital (MH), and Queensway Health Centre (QHC) – offering a full range of acute care hospital services, as well as a variety of community-based specialized programs including the Peel Regional Cancer Centre.

The Division of Radiation Oncology is comprised of a dedicated group of 12 radiation oncologists working primarily at the Credit Valley Hospital site. The Radiation Oncology Division also has affiliated clinics at William Osler Health Services (Brampton and Etobicoke sites) and Halton Healthcare (Oakville site). The successful applicant will be expected to participate in sub-specialty off site clinics.

The Division provides a full spectrum of Oncology consultation and related services and saw >3800 new patient consultations for radiotherapy in the past year. The Radiation Oncology program of the Carlo Fidani Regional Cancer Centre has 6 radiation treatment and 2 CT Simulation suites. The Cancer Centre is equipped with three Varian Clinac iX and three Varian Truebeam linear accelerators (two with HDMLC) with state-of-the-art IMRT, IGRT and VMAT (RapidArc) technology as well as a 2 Philips Big Bore Brilliance CT-simulators. The program employs a fully networked infrastructure for treatment planning on Varian Eclipse stations with Citrix access for seamless treatment planning and delivery. The Varian ARIA oncology information system provides electronic data for Radiation Oncology. Current clinical programs include Stereotactic Radiosurgery (Brainlab) and state-of-the-art HDR Brachytherapy suite (Elekta/Nucletron) for skin, gynecological and GU malignancies.

We currently have a clinical position available for a Radiation Oncologist to join our team. Services provided by the Division of Radiation Oncology include providing MRP coverage for patients admitted to Radiation Oncology; providing consultant coverage as required; and participating in shared sub-specialty call and related procedures. The successful candidate will be responsible for cancer treatment and care of patients with a variety of cancers, but experience with SBRT/SRS and treating GU, lung, CNS and/or skin cancers is preferred.

The successful candidate will promote and exemplify excellence in professional practice and conduct; be licensed or eligible for a license to practice in Ontario; and certified in Radiation Oncology by the Royal College of Physicians and Surgeons of Canada. He/she will have evidence of an academic interest and expertise and be eligible for an academic appointment at the University of Toronto (UT), Faculty of Medicine, Department of Radiation Oncology. THP is affiliated with the UT-Mississauga campus Academy of Medicine, a focus on medical education and educational scholarship is preferred. Excellent interpersonal skills and a commitment to team based and inter-professional care are essential.

Interested candidates are requested to **reply no later than July 24, 2017** with a letter of interest and curriculum vitae to:

**Dr. Anthony Brade**  
Division Head, Radiation Oncology
