

**RADIATION ONCOLOGIST - LOCUM  
EASTERN REGIONAL HEALTH AUTHORITY  
St. John's, Newfoundland**

Eastern Regional Health Authority (ERHA) invites applications from candidates interested in a full time position as a Radiation Oncologist at the Dr. H. Bliss Murphy Cancer Centre. The successful candidate will join 9 other Radiation Oncologists and will be responsible for treating thoracic and CNS malignancies, and to cover the palliative radiation oncology (PRO) clinic. Inpatient and outpatient clinical consultation service, as well as call which is shared equitability among the group is required.

Salary is competitive and based on the MOU negotiated between the Government of Newfoundland and Labrador and the Newfoundland and Labrador Medical Association.

Applicants must hold a Medical Degree, an FRCPC in Radiation Oncology or equivalent, and be eligible for licensure in the College of Physicians and Surgeons of Newfoundland and Labrador. Experience in gynecologic oncology HDR brachytherapy will be considered an asset but not a requirement.

Start date will be September 10, 2017 and will finish September 10, 2018

ERHA provides services to St. John's, as well as the Avalon, Bonavista and Burin Peninsulas. It is the largest health authority in Newfoundland and Labrador employing over 13,000 health care and support services professionals and serving regional population of more than 290,000. ERHA also offers unique provincial programs and services.

The Dr H. Bliss Murphy Cancer Centre is a fully equipped full-service cancer centre servicing the entire province of Newfoundland and Labrador. The clinic operates in a paperless environment using Varian Aria® software, and is equipped with 4 (four) linear accelerators including a Truebeam® STX unit with BrainLab® treatment couch, two CT simulators and an HDR brachytherapy unit. The centre has active tumor boards for all major disease sites, and has well developed programs offering such services as VMAT, IGRT, prostate HDR brachytherapy SRS and SBRT. A new molecular imaging facility housing a cyclotron and PET/CT is under construction, with PET scanning. Planning is also underway to construct a satellite centre in Corner Brook, NL expected to be operational by 2020.
