Radiation Oncology Fellowship Positions

The Division of Radiation Oncology, Department of Oncology is seeking applications for at least two Fellowship Positions to begin July 1, 2020.

Clinical and research activities will focus on brachytherapy, stereotactic body radiation therapy (SBRT), head and neck oncology, patient reported outcomes, and/or health services research, but other areas of specialization can be accommodated based on the successful candidate’s interest.

One fellowship position will be dedicated to the Person Centered Radiation Oncology Service Enhancement (PROSE) program – a department wide initiative to systematically integrate patient-reported outcomes into routine clinical care.

These one-year fellowships will provide an opportunity to gain clinical expertise, research and publication productivity. The Division of Radiation Oncology has close collaborations with the Arnie Charbonneau Cancer Institute for candidates interested in translational research activities.

The Tom Baker Cancer Center (TBCC) is a full-service, academic cancer centre with 8 linear accelerators, orthovoltage and LDR/HDR capabilities. There are active gyne and prostate brachytherapy programs. TBCC includes the provincial Alberta Radiosurgery Centre and established programs for lung, liver and spine SBRT. There are close interdisciplinary working relationships with Medical, Surgical, Gynecologic, Hematologic, Psychosocial Oncology, Palliative Care, Medical Physics and basic science faculty.

Candidates must have successfully completed Radiation Oncology specialty training. In accordance with Canadian immigration requirements, preference will be given to Canadian citizens or permanent residents of Canada. The University of Calgary respects, appreciates, and honours diversity.

Applicants are asked to submit a CV, three letters of reference, and a personal statement describing their fellowship area of interest. Remuneration will be commensurate with clinical experience and in accordance with post-graduate scales defined by the University of Calgary.
